

Curriculum Vitae (CV) for Faculty Staff

Personal statement: I am an Associate Professor of Fixed Prosthodontics with a strong commitment to excellence in teaching, clinical practice, and research. Over the course of my academic career, I have cultivated expertise in advanced fixed prosthodontic techniques, digital dentistry, CAD/CAM restorative workflows, and evidence-based treatment planning. My passion lies in mentoring undergraduate and postgraduate students, fostering critical thinking, and integrating cutting-edge digital technologies into prosthodontic education and practice. My research focuses on innovative approaches to improving the accuracy, efficiency, and patient-centered outcomes of fixed prosthodontic procedures, including digital workflows for implant-supported restorations and ceramic materials. I am dedicated to advancing the field by publishing impactful research, collaborating across disciplines, and translating scientific developments into clinical solutions. With a blend of academic rigor, clinical proficiency, and leadership in curriculum development, I strive to inspire future dental professionals and contribute to the ongoing evolution of prosthodontic education and practice.
